THE THANKSGIVING OF TO-DAY.

Thanksgiving Day resembles Fourth of July not only in the respect that it comes once a year, but in that it is now, thanks to college football and other regular events of the day, accompanied by a good deal of hurrah.

It is not the Thanksgiving of old that we celebrate generally in these times. There are exercises incident to the day which might prove shocking to some good men and women of earlier generations, who accepted this annually recurring occasion as a sort of extra Sunday. But this would only be because of the radical change of custom.

It has not hurt Thanksgiving Day to put dash and sport into its observance. Its conversion into a real red-letter day has nothing of the spirit of irreverence. Only a hopeful, healthful people will care for or indulge in active, blood-stirring sports. And people who are healthy and peful are, perforce, thankful, though they may not say it in so many words.

The Thanksgiving of to-day is a broader, more cheerful day than that of our grandfathers. The man who has no family red wn to is no longer out of all place for the time being. The diversity of entertainment offered indoor and out has some thing for everybody, and thankfulness need not in anybody's breast be drowned out by loneliness or homesickness.
